

PERFORMANCE DATA

Heat stopped	58%
Light Transmitted (see note below)	35%
Light Reflected	10%
Ultra Violet Rejected	>98%
Glare reduction	60%
Non metalized	-
Vacuum metalized	-
Porus sputtered	✓
Scratch resistant coating	✓
Adhesive type	HPR

Note: all data tested on Pilkington auto glass green 4mm with a 78% VLT

The application of this film to a motor vehicle (unless approved for such use by the Transport Regulator in your area) may render any claim against an Insurance Company (for either Third Party or Comprehensive Insurance) NULL & VOID. Police are powered to ground non-complying vehicles and issue warrants for fines resulting in loss of driving points for the driver.

BENEFITS

- Advanced porous sputtering technology.
- Performance metal utilised in manufacture.
- 58% heat reduction.
- Reduces over 98% of harmful UV.
- Reduces glare by 60%.
- Reduces fading of upholstery.
- Reduces load on air conditioner.
- Strengthens glass.
- World's toughest scratch resistant surface.
- Patented HPR adhesive.
- With “Fast Dry” performance.
- Lifetime warranty - not transferable.
