Note: all data tested on Pilkington auto glass green 4mm with a 78% VLT

The application of this film to a motor vehicle (unless approved for such use by the Transport Regulator in your area) may render any claim against an Insurance Company (for either Third Party or Comprehensive Insurance) NULL & VOID. Police are powered to ground non-complying vehicles and issue warrants for fines resulting in loss of driving points for the driver.

## BENEFITS

- Specifically designed for the application to vehicles with in-glass antenna for radio, telephone and satellite navigation systems.
- 50% heat reduction.
- 40 micron thick.
- Reduces over 98% of harmful UV.
- Eliminates glare by 60%.
- Reduces fading of upholstery.
- Reduces load on air conditioner.
- Strengthens glass.
- World's toughest scratch resistant surface.
- Patented HPR adhesive.
- Lifetime warranty - not transferable.

Note: It is recommended that the entire vehicle be tinted with this film to ensure total colour matching.
